Ahmad Jaenal Aripin

Cibingbin, Cingambul, Majalengka Regency, West Java, Indonesia

Informatics Engineering graduate from Universitas Komputer Indonesia with less than 1 year of experience in mobile application development using Flutter. Skilled in translating UI/UX designs into functional mobile applications and proficient in local storage solutions (SQLite, SharedPreferences, Hive), Firebase services (Authentication, Cloud Messaging, Storage), MySQL, Supabase, and Sentry for application monitoring and error tracking.

## Education Level

---

**Universitas Komputer Indonesia** – Jl. Dipati Ukur No.112-116, Lebakgede

Sep 2021 – Oct 2025

Kecamatan Coblong, Kota Bandung, Jawa Barat 40132  
*Undergraduate Informatics Engineering, 3,73/4.00*

## Skills and Other Experience

---

**Internship:** Web Developer (3 months) - Developed a website for managing daily reports of internship participants using Laravel and Tailwind at PT. Teknologi Laskar Mulia.

**Internship:** Mobile Developer (6 months) | PT. Ragdalion Revolusi Industri - Developed and maintained cross-platform mobile applications using Flutter and GetX. Worked closely with the QA team to identify and resolve issues through Jira, ensuring high application quality and performance. Contributed to the development of Cerol v5 (currently undergoing Google Play Store publishing) and Sikomo (published on Google Play Store). Refactored existing codebase and implemented new features and REST API integrations for the Andon Calling Radgalion application.

**Project (2022)** - Developed a Learning Management System (LMS) application for managing student assignments as part of a university project using Flutter and Firebase.

**Project (2024)** - Developed a social media application as part of a university project using Flutter and Firebase.

**Project (2025)** - Developed the Jasmaniku application for monitoring daily activities of elementary school students using Flutter and BLoC as state management, with Firebase and Laravel as REST APIs.

**Interest:** Front End Developer, Android Developer, Machine Learning

**Soft Skills:** Communication, Problem Solving, Creative

### Hard Skills:

- Flutter dan Dart
- Version Control (GitHub dan Gitlab)
- Json
- REST APIs
- Postman
- Sentry
- State management (Bloc, Provider, Getx)
- Firebase (authentication, storage, notification, crashlytics, analytics)
- Object Oriented Programming (OOP)
- Clean architecture, MVC, MVVM
- Android SDK
- Database (MySQL, supabase) and Local storage (shared preferences, SQL lite, hive)
- Laravel
- CI/CD (codemagic)
